

- > Add your background colors and graphics within the shaded area below.
 - » You can turn the shaded “print area” off in the Layers window, allowing you to add your own graphics.
- > The text and information listed is for guidelines. Please adjust accordingly to meet the specifications of your own product.
- > Our graphics team will add white behind the entire print area, unless you specify other wise.
- > Remember, this is only a guide. As long as the Art Area and Cut Area guides stay in place, you can do what you want.
- > Prints on Clear Shrink Label Material.

This template is based on a common 2oz bottle size that measures exactly **114mm circumference x 83mm-85mm height** (including cap). If you have any doubt about the size of your bottle, please feel free to send us a bottle and we can size it for you.

DESIGNERS (FYI):

- 1.) Build all small text that is in black as 100% Black, NOT CMYK, so that it prints cleanly and does not have registration concerns.
- 2.) Keep all text at least 2mm from left and right side of artwork rectangle area sides. The art area overlaps by 1mm when seamed.
